Date Tested: 01/31/2024

Metals results are quantitative for cannabis plant material, hemp, cannabis concentrates, cannabis infused products, and hemp infused products only. Metals results for matrices other than those specifically listed should be considered non-quantitative, non-specific, and for general information purposes only.

LOD (limit of detection) and LOQ (limit of quantification) are parameters employed to express the lowest concentration of an analyte that can be reliably detected and quantified by an analytical procedure. Results are based on OMMA decision rules. Results reflect quantitative values obtained from testing the sample as received. This report shall not be reproduced, except in full, without the written consent of Higher Testing Laboratory.
