LOD (limit of detection) and LOQ (limit of quantification) are parameters employed to express the lowest concentration of an analyte that can be reliably detected and quantified by an analytical procedure. ND = Not Detected. NT = Not Tested. NR = Not Reported. Results based on OMMA decision rules. Results are obtained from testing the sample provided by the customer. Potency, terpene, heavy metals, and pesticide results are reported on a dry-weight basis where applicable. This report shall not be reproduced, except in full, without the written consent of Higher Testing Laboratory.
